ST. ANTHONY'S SR. SEC. SCHOOL
C-6, S.D.A., HAUZ KHAS NEW DELHI-110016

ST. ANTHONY'S SR. SEC. SCHOOL HAUZ KHAS

VISION

We envisage a God centered, inclusive, egalitarian, caring and progressive society imbued with human qualities.

MISSION STATEMENT

We are committed to

- Promote integral formation based on the principles of Gospel values to all students, irrespective of caste or race.
- Strive to empower and enable every student to be a well equipped, kind, compassionate and responsible global citizen committed to the care /cause of humanity.
- Inspire young minds to think creatively and critically, solve problems and develop a lifelong enthusiasm for learning and thus, prepare them for future challenges and opportunities.
- Encourage children to develop the qualities of self-discipline, positive self – image, resourcefulness, teamwork and leadership.
- Provide a safe, secure and inclusive environment in which each child can enjoy learning and strive for excellence.
- Promote awareness among students, staff and parents about the social / global evils undermining the moral fabric of our nation, providing right moral perspective to the adolescence.
- Foster ecological balance as a tribute to St. Francis of Assisi - the patron of ecology, through Plantation drives, within and around the school.

CHILD PROTECTION POLICY

Institutions are gardens where young children flower into honest and upright citizens of character and conviction. We empower them through holistic education focusing on all round development by creating a healthy school environment where all children are respected, all discriminations based on economic background, caste, creed, language or region are avoided. It is not only the physical safety that we are concerned about but also emotional and spiritual safety. We commit ourselves to caring for the needs of the young and empower them to achieve their full potential so that they may live life to the full.

Any harm done to children intentionally or unintentionally, that damages the prospects of safe and healthy development of children into adulthood by individuals, institutions or processes through commission or omission would be considered abuse.

The school takes all appropriate measures to prevent any abuse or exploitation. It provides a welcoming atmosphere where parents/guardians, students and staff feel comfortable to express concerns about child protection issues.

The school respects the rights and freedom of each individual, firmly believing that our education and intervention will enable them to become more balanced and well integrated.

We commit ourselves to protect children from all forms of abuse and exploitation and take all appropriate measures to prevent any kind of abuse.

Parents and Guardians are requested to collaborate by persuading children to be disciplined, respectful, well mannered and moderate in their use of social media and avoid any type of bullying and aggressive behaviour.

We believe that each child is a gift from God born with inherent dignity and right to respect. Protecting every young person entrusted to our care is not only our duty and responsibility but also our priority.

SAFETY RULES

Take permission before going anywhere: Teach your kids to take permission before they go anywhere. This is because you would know about the place and make sure whether it is safe for your child or not before allowing her to go there. On the other hand, you will also be aware where your child is.

Know all the important personal details: Make your child learn their address, parent cell numbers and emergency phone numbers. This will help your child to get in touch with you at the earliest if she finds herself in any kind of danger. Your child should know where to call during emergency.

Do not hesitate asking for help: When in danger teach your child to ask for help. Ask them to trust their instincts during adverse times. Also let your child understand that adults do not ask children for help and if someone asks them to come along with them in the car, they should say 'no' and run away from there.

What to do with when lost: Your child may get lost especially when they are in a crowded place. Teach them to reach a safe place or yell, scream or ask for help from any parent with how to immediately get in touch with family members.

No to strangers: Teach your children not to take anything from strangers or go with someone you do not know. Also, they should not do anything that they are not comfortable doing. Leave your child with the people whom you trust completely.

Do not keep secrets from parents: Do listen to your child and ask her about things and whom she meets. Talk to them about their day and everything and make them understand that they should not keep secrets from their parents. If someone asks them to keep secrets they should immediately let their parents know about that.

Develop Healthy Practices to Protect Yourself from Coronavirus: Teach your children to wash their hands often with soap and water for at least 20 seconds, especially after being in a public place, or after blowing their nose, coughing or sneezing. They should cover their nose and mouth with a disposable tissue/handkerchief when coughing or sneezing. If soap and water are not readily available, they should use a hand sanitizer with at least 60% alcohol. Children should avoid touching their eyes, nose and mouth with unwashed hands. They should wear N95 or a 3-ply mask to cover their mouth and nose when around others in public.

RISK MANAGEMENT

Schools have an enormous influence in supporting and strengthening protective factors in the children, families and communities. For children, the school plays an even more significant role than the family unit. The daily contact schools have with children provides many opportunities for children to acquire internal and external protective factors associated with resilience. Schools provide a critical context in shaping children's self efficacy and sense of control over their lives. With this, an incredible opportunity to minimize and in many instances, prevent or mitigate future problems for these children. Recognition of the critical role the school environment provides in promoting resilience and positive outcomes for children is increasing worldwide. As a result, three key factors for developing resilience in children have been identified, these are:

- Caring Relationships
- High Expectations and Academic Standards
- Opportunities for Participation and Contribution

When the environment is supportive, challenging, and involving, and the potential of each child recognized, protective factors and resilience are promoted. Every interaction becomes an opportunity to build protective factors and promote resilience.

Risk Protective Factors

• Provide ample praise • Encourage curiosity and independence • Provide challenges to children but do so gradually • Provide a safe environment • Encourage sharing of ideas and feelings • Encourage empathy • Provide recognition to children who act with empathy • Model problem solving, courage, optimism in the face of adversity • Maintain positive attitudes and behavior • Encourage problem solving to resolve interpersonal problems • Provide clear rules, enforce them with consequences when rules are broken • Provide firm discipline • Provide reconciliation when discipline is needed • Assist children to take responsibility for behavior • Establish clear rules, set limits, and enforce consequences • Provide encouragement and guidance when errors are made or failures occur • Provide comfort and encouragement in stressful situations • Model appropriate behavior in stressful situations • Seek help when needed • Encourage flexibility in responding to different situations and approach to learning
